

Features

- **Passive optical module based on dispersion compensating fiber technology**
- **Superior dispersion compensation performance over 1550 ± 20 nm wavelength window**
- **Low insertion loss**
- **Adjustable side mounting brackets for fiber connections from front or rear of 19-inch rack**
- **1RU rack space**

Dispersion Compensation Units

Dispersion in optical networks used for data transport, particularly over longer fiber distances, can adversely affect system performance (e.g., due to increased bit-rate errors resulting from pulse shape degradation). Aurora's DC1500 series of Dispersion Compensation Units are designed to minimize such effects with an all-passive design that provides appropriate pulse shape correction.

Three models of the DC1500 series are available to compensate for dispersion effects for distances of 20, 40 and 60 kilometers, and all models are characterized by superior compensation performance combined with low insertion loss.

These units occupy 1RU of rack space and are provided with rack mount adapters that are easily changed to permit fiber connections from either the front or rear of the rack.

DC1500

Product Specifications

Physical:

- Dimensions, without side rack mounting brackets:
13.0" D x 1.75"H x 17.0" W (33.2 cm x 4.5 cm x 43.2 cm)
- Width with additional rack mounting brackets: 19.0" W (48.5 cm)
- Weight: 13 lbs (5.9 kg)

Environmental:

- Operating temperature range: -20° to +65°C (-4° to 149°F)
- Storage temperature range: -40° to +85°C (-40° to 185°F)
- Humidity: 5% to 95% non-condensing

Optical Interface:

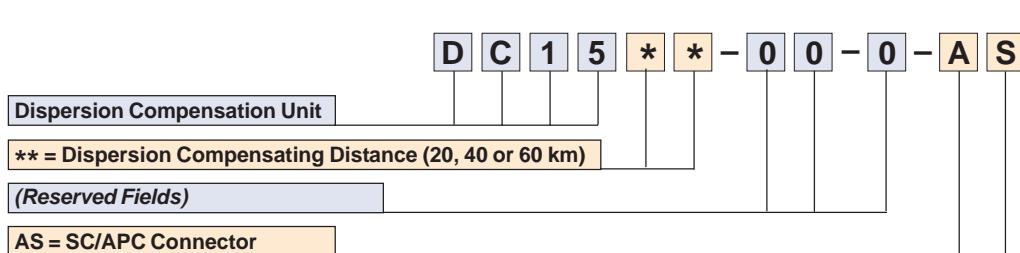

- Two non-directional input/output ports with SC/APC connectors

Optical:

- Wavelength window: 1550 ±20 nm
- Return loss, min: 50 dB
- Relative Dispersion Slope, max: 0.0035 nm⁻¹ ±20%
(Note: RDS = $S_{DCF} / D_{DCF} = S_{SMF} / D_{SMF}$)
- Power handling, max (without optical damage): 27 dBm
- Polarization dependent loss, max: 0.1 dB
- Polarization mode dispersion, max: 0.6 ps (typ 0.25 ps)

	Model		
	DC1520	DC1540	DC1560
Distance (km) for SMF-28 Dispersion Compensation	20	40	60
Dispersion (ps/nm)	-340 ±3%	-680 ±3%	-1020 ±3%
Insertion loss (dB) (including connectors)	Typ 2.9 Max 3.4	Typ 4.0 Max 4.7	Typ 5.6 Max 6.1
